

NIRA SHAH

Winnipeg, MB | itsnirajan99@gmail.com | github.com/sNirajan | linkedin.com/in/nirajan-shah

FULL STACK SOFTWARE ENGINEER | Node.js | TypeScript | React.js

Product-focused Engineer with a background in high-stakes customer service and full-stack development. Sole backend owner for production-grade web platforms with a proven track record of troubleshooting complex technical issues and translating them into clear solutions for non-technical stakeholders.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Java
- **Frontend:** React.js, Next.js, Responsive Design, UI Libraries
- **Backend & Systems:** Node.js, Express.js, RESTful APIs, Linux/Unix
- **Databases:** MongoDB, PostgreSQL
- **Cloud & DevOps:** AWS (EC2), GitHub Actions (CI/CD), PM2, CircleCI (Learning/Theory)
- **Testing & QA:** Unit & Integration Testing (Jest, Supertest), Debugging/Logging

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Contract)

KSVA Tech Solutions | Next.js, Node.js, Express, AWS EC2

October 2024 - October 2025

- **Technical Ownership:** Served as the sole backend developer, taking full responsibility for the architecture, API contracts, and database integrity using Node.js and MongoDB
- **Rapid Troubleshooting:** Acted as the primary point of contact for all technical defects; utilized system logs and debugging tools to identify, reproduce, and resolve production bugs, maintaining high system availability
- **API & Integration:** Collaborated with frontend developers to design and implement RESTful APIs, ensuring seamless integration with a React-based user interface
- **CI/CD & Deployment:** Automated deployment workflows using GitHub Actions, reducing manual deployment errors and streamlining the release of new features to AWS EC2

Customer Service Representative | 7-Eleven, FreshCo | 3 Years Experience

- **Technical Communication:** Developed the ability to translate complex situations into simple, actionable information for diverse customers in a high-pressure retail environment.
- **Problem Resolution:** Mastered de-escalation and troubleshooting techniques to resolve client complaints, a skill set directly applicable to Knit's "first contact" technical support requirement.

PROJECTS

Insurance Policy Management System | PHP (Laravel), React, TypeScript, Pest | [GitHub Link](#)

- Engineered a full-stack CRUD application featuring a **Laravel REST API** and a **React + TypeScript** dashboard to manage insurance policy lifecycles.
- Implemented robust backend logic with automated validation and test to ensure data integrity across JSON responses.
- Designed a modular frontend architecture using **Vite** and **React**, focusing on clean API integration and responsive component design.

What-If Investment Simulator

Full-Stack Web Application | Node.js/Express, TypeScript, Next.js, Zod, Vitest | [GitHub Link](#)

- Built a full-stack investing simulator with a **typed REST API** that runs **deterministic historical backtests** from validated inputs and reproducible backend logic
- Implemented clear error responses, health-check endpoints, and automated tests for core date and math logic (vitest)

EDUCATION

Bachelor of Applied Computer Science
University of Winnipeg, Winnipeg, MB

June 2024
